Job Opening:
Assistant Professor of Management

University of Massachusetts Boston

The Department of Management in the College of Management at the University of Massachusetts Boston invites applications for a tenure-track Assistant Professor, beginning September 1, 2024. Appropriate candidates will hold a PhD/DBA in Management or closely-related discipline (ABDs will be considered but must complete their doctorate by September 1, 2024). Appropriate candidates will demonstrate clear research and teaching interests in Strategic Management, and a record of publications or clear pipeline of manuscripts in progress. The candidate will be expected to teach in-person and online courses primarily in Strategic Management at the graduate and undergraduate levels in support of the Bachelors of Science in Management (BSM) and Master of Business Administration (MBA), with the potential for teaching in related management disciplines as needed. The candidate will also be expected to support the Department’s track in Organizations and Social Change as part of the College’s PhD in Business Administration.

The Department is part of the AACSB-accredited College of Management, which offers bachelor and graduate degrees, including an MBA that can be completed online, on campus, or a combination. The College has a Center for Collaborative Leadership and participates in cross-college initiatives such as the Sustainable Solutions Lab and the Venture Development Center. Numerous opportunities for research and collaboration exist with faculty, businesses, governmental agencies, institutes, and research centers in the university system and in the greater Boston area. The region is a global hub of innovation and expertise in a number of sectors, including financial services, clean tech, healthcare, life sciences, education, and software development.

The University of Massachusetts Boston has outstanding research programs in a number of fields and has been designated as an institution of "high research activity" by the Carnegie Classification of Institutions of Higher Education. Located on Boston Harbor in one of the most intellectually rich and innovative cities in the United States, UMass Boston is recognized nationally as a model of excellence for urban universities. Its nine colleges and schools enroll about 16,000 students and employ more than 800 full-time and part-time faculty, who provide over 200 academic programs leading to baccalaureate, certificates, master's and doctoral degrees.

Please apply online with a current curriculum vitae, cover letter or statement of interest, sample publications, evidence of teaching ability, and contact information for three letters of recommendation:
Applications will be accepted continuously until the position is filled, but the review of applications will begin on November 20, 2023.
