- **Intake-To-Placement/ Foster Centric**: Pets physically entering the shelter have outcome pathways identified before or at the time of intake, so in-shelter length of stay is drastically reduced and the majority of pets who enter the shelter system are placed in foster homes within hours or days of arrival and foster pets are adopted directly from their foster homes. **Hosted by**: Kelly Duer, Foster Care Specialist, Maddie’s Fund

- **Supported Self-Rehoming**: Pet owners who can no longer keep their pets are given the tools to safely and quickly rehome their own pets with ongoing support from shelter staff or volunteers. **Hosted by**: Laura Van Wagner, Account Manager, Home to Home, and Lucy Fernandez, PASS Program Coordinator, Austin Pets Alive!

- **Field Services and Public Safety**: Animal control and field services protect public health and safety, enforce animal cruelty and neglect laws, and aim to address the root causes of animal problems. They provide support, information, access to care and resources to the community. **Hosted by**: Sara Muriello, Vice President of Programs and Services, Pasadena Humane
